www.srett.com

Part Number : 1001084.001

Summary :

This document contains the specification for OED housing sticker for Schlumberger configuration.

Historique					
Date	Version	Auteur	Vérifié par	Approuvé par	Comments
04.03.2016	AA	A.Moullard	O.Boun	C.Merle	Creation

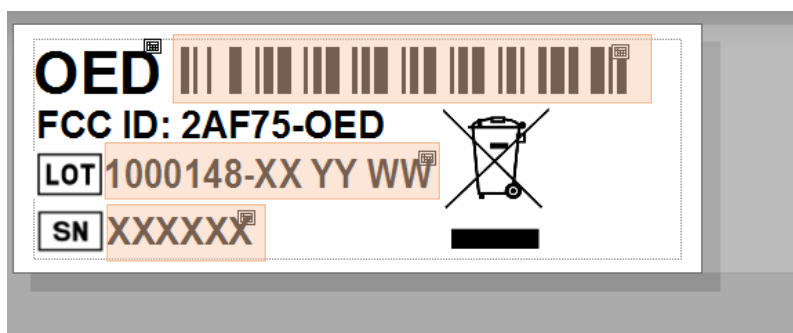

1.1.Format

Color	Black ink on white sticker
Size	Standard BROTHER 12 mm x 40 mm (TE-231)

1.2.Content

1.2.1.Variable elements on the sticker are:

- The serial number of the device as human readable
- The serial number as a barcode 128.
- The batch number of the production.

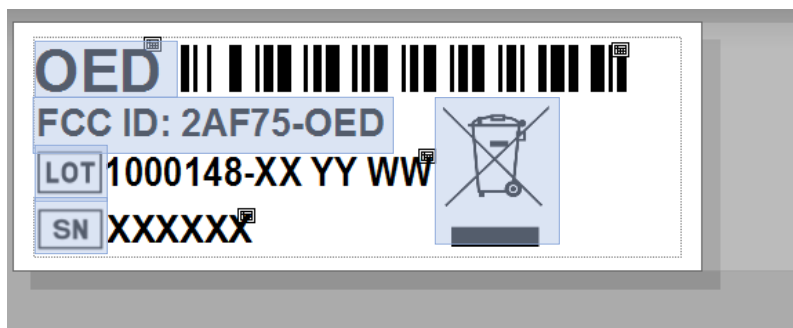

The serial number is made of 3 bytes (16 million values) encoded in hexadecimal format (hence 6 characters XXXXXX).

The batch number is made of 3 numbers: 1000148-XX YY WW

- 1000148-XX is the product part number, and XX is the version of the batch in capital letters
- YY is the last two figures of the year of manufacturing
- WW is the number of the week of manufacturing (01 to 52)

1.2.2.Fix elements are:

- The name of the product OED
- The FCC ID 2AF75-OED
- The symbols

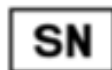

The symbols are :

Crossed-out dustbin logo – waste must be collected separately

Lot symbol – in front of the batch number

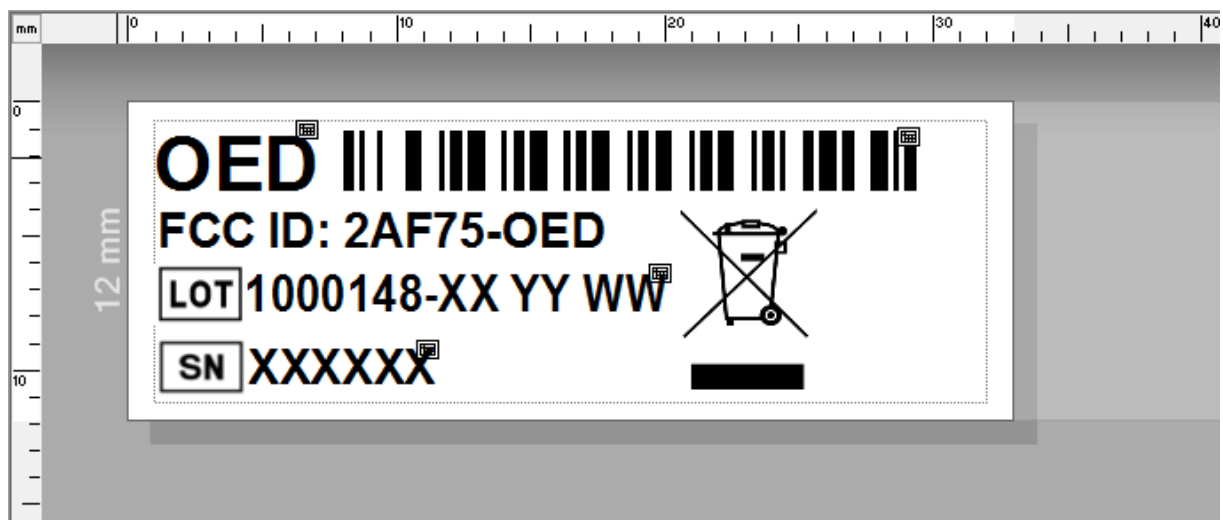

Serial number symbol – in front of the serial number

Localization:

The sticker is located on the bottom part of the OED enclosure as shown on the mechanical assembly plan:

Sticker configuration:

Printable file: 1001084.002.AA OED Housing Sticker for SLB.lbx
Serial number table for OED: 1000497.003.AE OED Housing Sticker.xlsx.

WARNING: The table is shared between SRETT and SLB configurations.
